Fax:

Unlocking Your Software

Serial number:

Site code:

Click button #1 to open a browser and register your serial number and site code. Once you receive a site key, copy it and then click button #2, below. Finally, click button #3 to authorize your software.

#1 - Submit Codes

#2 - Paste Site Key

#3 - Unlock TreeAge Pro

Follow These Steps.

Browser should open automatically and you should see a long 40 digit number called Site Key.

Paste it in the field next to button #2 and press button #3. TreeAge Pro should be now unlocked.

If for some reason the Browser does not open automatically please follow the steps on the next page:

Open a browser manually and enter the following address into the browsers' URL field:

<http://www.treeage.com/sitekey.html>

You should be presented with the following page:

Paste the Serial Number and Site Code from the Manual Authorization Dialog

Site Key

To unlock your TreeAge Pro software, you need a Site Key. The Site Key is generated from your license Serial Number and the Site Code generated by your computer.

Enter your TreeAge Pro Serial Number and Site Code (from the Manual Authorization/License Configuration window).

Serial Number: ?

Site Code: ?
